

Fraudulent emails and social media messages—often containing malicious links or attachments—are common after major natural disasters.

Exercise caution in handling emails with hurricane-related subject lines, attachments, or hyperlinks. In addition, be wary of social media pleas, texts, or door-to-door solicitations relating to severe weather events.

Please educate yourself using the U.S. Government’s Cybersecurity & Infrastructure Security (CISA) webpage, with info & links to avoid falling victim to malicious cyber activity:
